

免費 肝纖維化掃描 (FibroScan) 檢查

Ethnic Communities
Council of Queensland

- 昆士蘭民族社區委員會 (ECCQ) 現為移民中的乙 (B) 肝及丙 (C) 肝感染者提供免費的FibroScan檢查。
- 長期慢性乙 (B) 肝或丙 (C) 肝感染可導致肝硬化、甚至肝癌。
- FibroScan用于檢測肝硬化和肝損傷的情況。這項檢查快速、無痛、安全，可以代替有創且費時的肝臟穿刺檢查。
- 您必須通過您的家庭醫生進行轉介，詳情請見背面。

Process for GPs to refer patients for a **free** FibroScan

1. FibroScan may be able to be performed at your practice. Please contact Management and Treatment Co-ordinator at ECCQ on 3255 1540 Ext 214 or referrals@eccq.com.au to arrange Fibroscans.
2. Download the FibroScan referral form **www.eccq.com.au/health** for patients requiring FibroScan at another location.

Referrals can be emailed to **referrals@eccq.com.au**
